PETER MOLNAR

iOS Developer, IT Engineer

Phone	|	+356 99664902
Skype	|	petermolnar.hu
Email	|	**petermolnar.hu@gmail.com**

TOP RESULTS AND ACHIEVEMENTS

+In my current role I successfully discovered and fixed major bugs, gained more than **4 Million Euro plus income** to the company.

+Helped the Hungarian Authorities to prove the plagiarism in two game engine source code in C++ in a 10 Million HUF crime case.

EMPLOYMENT

2015- Freelancer, Malta **iOS Developer**
Developed apps and utilities for Apple iPhone and iPad in Objective-C language.

2014- RCI Life Ltd, Malta **Software Developer/Analyst**
Designed and implemented a custom Unit-testing framework to support the early non-regression detection. Refactored and optimised the current codebase.

2012-2014 RTFX Ltd, Malta **IT/Web Administrator**
Developed the company deployment system in PHP, MySQL and shell scripts, which enabled the developer colleagues to check out any new feature branch on the demo server, or deploy the current version on staging and production server in minutes.

2010-2011 Freelancer, Hungary **Forensic Expert Candidate**
Supported the Hungarian authorities in IT related questions, forensic in source code comparison.

2008-2013 Freelancer, Hungary **Web Developer**
With a manufacturing support software I developed, the company could optimise and estimate more precisely the current production outcome.

2001-2011 W-Megatron, Hungary **IT Manager**
Developed of small utilities such as one, which was enabling to prolong the lifetime of EPROM based VAT Tax memories. Managed the IT Department.
